Roland Dios

SOFTWARE ENGINEER

✉ roland.dios92@gmail.com   📍 Pocsaj, Magyarország   📞 +36301316339

Profile

A very passionate software engineer with 1,5 years of Full-Stack development work experience, who is also curious in new and existing technologies and languages.

You can read more in-depth on diosroland.site.

Employment History

Full-Stack Developer, Mayor's Office of Pocsaj

January 2022 — May 2023

I was the only developer in the Office, so I had to do the following:

In-house projects:

- Inquire my coworkers about what their work is, and how I could make it easier and more productive with a software.

- To create said software's flowchart, documentation.

- Set up the test environment and version control.

- Optimizing, and accounting for older hardware, and older versions of windows.

- Delivering the software in time.

Other:

- Improving drastically the SEO of Pocsaj.hu, by eliminating redirect errors, creating a sitemap, etc. Currently it is the second search result if you search for pocsaj.
